Product overview

Asenware AW-D110 is an intelligent addressable monitor module, which can be configured with Asenware AW-FP100 Series Addressable Fire Alarm Control Panel. Each point (devices) can be given specific ID or individual address, which allows the panel to continuously monitor specific location (point). The module has a panel controlled LED indicator.

Product Features

- Addressable-analog communication
- Two-wire connection
- Two LEDs one is Green, which blinks in normal condition and another one is Red which becomes steady during fire alarm condition.
- Remote test from Panel

Technical parameters

Model No.	AW-D110
D/C	1715
Operating Voltage	18V-28V DC
Standby Current	≤ 5mA
Alarm Current	≤ 25mA
Temperature	-10°C~50°C
