

- Intelligent unit with built in PCB Board
- Room card recognition, only valid room card can activate the power of the valid room number
  
- Operating voltage: Current 220V $\pm$ 10%
- Working load current: 6A / 30A;
- Total loading rate: 350W / 6600W;
- Materials: ABS;
- Static working rate: 0.01W;
- Deferred time: 5-10 seconds
